

EXPLORE BUS

Features (Implemented):

- ✓ Showing suggestions of the village names as the user input characters of the village name.
- ✓ Showing Bus Number.
- ✓ Showing Main Halts (like village Names or Main area names in a village).
- ✓ Showing Bus Driver Name along with Bus Driver Contact Number.
- ✓ A Route Map to show in which way the bus is travelling (like : via village names) to the college.

Features (Want to Implement):

- Shortest Distance between the user home location to the any halt of that route map.
- Tracking the bus driver location (with phone number) to show the route to the bus from the user live location.
- Showing if there is any bus cancellation for a particular day.
- Showing if there is any replacement of a bus for a particular day or for some days.
- Displaying the time of arrival of bus to a particular stop.
